===== Company Overview 2016 =====

# OUR MISSION

We Love Our Work

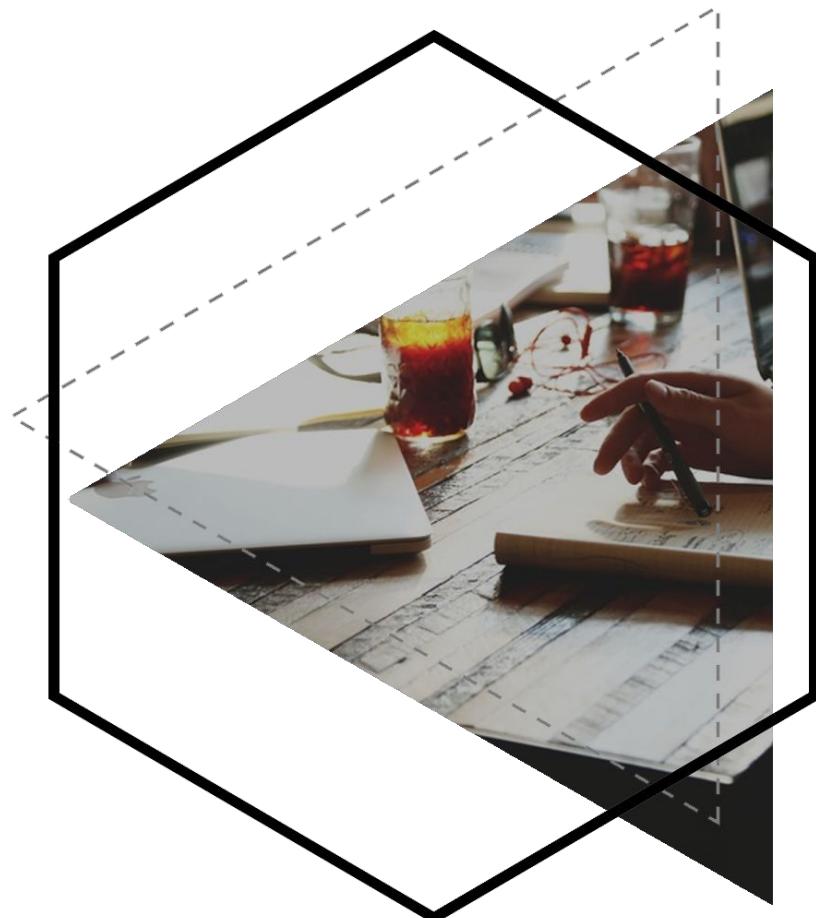

KMP Labs is a full scale production company and experiential event agency based in Los Angeles, California. Since 1998, KMP Labs has served its partners with the highest standards in audio, video, lighting, event production, and fabrication.

# CREATIVE PROCESS

1. **Creative Briefing** - Our team meets to discuss client vision, goals, budget and timeline. A project portfolio is created and serves as a continuous guide throughout the creative process and ensures that all branding and key messages are consistent. We take care to understand all facets of a project.
2. **Brainstorming** - Our team reviews the project portfolio and renders numerous creative solutions for all particulars of the project.
3. **Concept Presentation** - Our initial concepts are presented to the client to be discussed.
4. **Revision** - The client-approved ideas will be evaluated and revised, according to budget, time allowances, and brand expectations.
5. **Final Concept Presentation** - The polished concept is presented one last time for final approval from the client.
6. **Execution** - Our build team takes the project from here: fabricating, building and/or setting up the project to the exact specifications agreed upon.

# LIMITLESS

Limited by nothing but our collaborative imaginations.

# Light up the dark.

## Shine Bright.

It is something to be able to paint a particular picture, or to carve a statue, and so to make a few objects beautiful; but it is far more glorious to carve and paint the very atmosphere and medium through which we look. To affect the quality of the day--that is the highest of arts.

-Henry David Thoreau
